* Warranty on complete Unistrut metal framing solution ask us for more details

Over 90 Years of Innovation

Unistrut began developing and manufacturing products during the 1920s, producing the original Unistrut metal framing system. Our extensive product portfolio now includes a variety of cable management solutions and advanced metal framing systems.

Our Bespoke Solution

Our prefabricated framing services specialise in solving complex framing issues. Our ability to assess, design, build and support bespoke framing systems has proven to be invaluable on a variety of major projects.

Unistrut remains the go-to product for both simple and complex projects - Its versatility and durability is proven in a broad range of industries and applications and when utilised with other cable management products, provides a one-stop-shop for a complete and robust system you can trust.
