# Unistrut : Our Solution

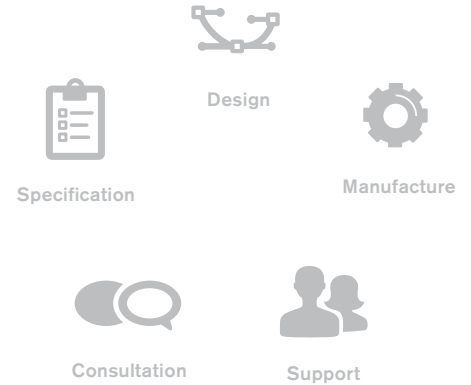

For over 80 years, Unistrut has lead the way in metal framing systems, development and manufacture started during the 1930's with the invention of the original Unistrut metal framing system. Our extensive product portfolio includes a range of cable management and metal framing solutions.

## Cable Management

Our Cable Management products, including Ladder, tray and basket, help to support the infrastructure that is vital to modern Oil & Gas industry. With a comprehensive range of products with accessories and a wide range of materials and finishes including galvanised and Stainless Steel, most applications can be supported

## Metal Framing

The original Unistrut metal framing solution offers unrivalled quality, flexibility and durability and is designed to compliment our full range of new Unistrut parts and accessories. Designed and created by us, our metal framing underlines our commitment to produce products you'll be proud to install. Our metal framing solutions are supported by a 10 year warranty when genuine Unistrut parts are used for the complete Metal framing solution.

## Above and below ground Rail

With excellent worldwide services and products, Unistrut can offer custom solutions and expertise to meet the needs of even the most complex projects, for the harshest of environments.

### Here is a primary heading

We understand the challenges that these projects create. It's often the case that an off-the-shelf solution is unable to answer all of your needs and requirements – including specification, design and environmental issues. In these situations a bespoke solution can offer you the durability and flexibility you need to meet your project needs.

### Here is our project experience

Our products and services are specialised to solve complex application needs. Our ability to assess, design, build and support bespoke systems has proven to be invaluable on a variety of worldwide major projects, helping to support the major players in the market such as;

Total, Exxon Mobil, Shell, AGIP and their key channel partners such as;

- Bechtel, Bonatti, Petrofac, SPIE, etc.

In countries as far and wide as

- Kazakhstan, United Kingdom (North Sea), Australia, Canada, South America and the United States of America.
